Dear Westwood Families,

Thank you for your continued support of the Nutrition Services Department. It is a joy to see the smiling faces of your children each and every day.

Through the extension of the USDA pandemic response program, our district continues to offer free breakfast and lunch to all students for the duration of the 2021-2022 school year. These meals contain a protein source, whole grains, fruits, vegetables, and milk. Students are encouraged to select all available components to ensure a balanced meal that will help to nourish their bodies and provide fuel for a day of learning!

If your child would like to purchase additional items as a snack or extra, please make sure that there is money available on your child's account to purchase these items as desired. For your convenience, item costs are listed below.

Student Milk: \$0.50 Additional Breakfast Entrée: \$1.00 Additional Lunch Entrée: \$2.50

If you have any questions, or would like to learn more about our Nutrition Services program, please feel free to contact Andrea Rutger, Director of Nutrition Services, using the contact information provided.

Andrea Rutger MS, RDN LD

Director of Nutrition Services
